Claims 1-36 are presented for examination.

Applicants' election filed September 8, 2003 in response to the restriction requirement of July 31, 2003 has been received and entered. The applicants elected the invention described in claims 1-20 (Group I) with traverse.

Claims 21-36 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR 1.142(b)).

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for octadecanol, propanediol, hexadecanol, oleic acid, mineral oil, does not reasonably provide enablement for all inactive ingredients broadly. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make or use the invention commensurate in scope with these claims.

It is not point out what are the other "inactive ingredients" that are combined with perilly aldehyde.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 15 are rendered indefinite by the phrase "at least one inactive ingredient" which fails to show what inactive ingredient is preferred by the applicants. Since the phrase is considered to be broad and the phrase would read upon any inactive ingredient, for example, sodium or methanol. Claims 2-14 and 16-20 are rendered indefinite to the extent that they incorporate the above terminology.

Claims 1-20 are not allowed.
